x \$100.00 per acre = \$ _____

*** Maximum Commercial, Industrial and Multi-Family Permit Fee is \$2,500.00 ***

TOTAL PERMIT FEE: \$ _____

SECURITY BOND

The Project Engineers estimated cost of construction is required with the submission of this application.

A Security Bond in the amount of one hundred and thirty percent [130%] of the Project Engineer’s probable cost estimate for the Approved Stormwater control devices and Erosion Control measures must be posted before any land-disturbing activities occur.

Acceptable Sureties include Cash, Bond, Certified Check or Irrevocable Bank Letter of Credit from an approved financial institution within the Commonwealth of Kentucky.

The Security Bond will cover all of the soil erosion and sediment control devices, detention/retention basins and stormwater facilities and all related construction.

The Security Bond shall remain in full force and effect until the termination activities have been recognized as complete and “Approved” by the County Engineer.

APPLICANT SIGNATURE (or agent):

I as Property Owner/Agent and Stormwater and Erosion Control Permittee understand that it is my responsibility to utilize a Qualified Professional to perform maintenance inspections on all control measures, at least every seven [7] calendar days and within twenty four [24] hours of a one-half [0.5] inch rain event.

The Permittee shall document all maintenance inspections in writing.
Inspection Reports shall be made available upon written request by the County.

If the permitted project exceeds 36 months [3 years], the Storm Water Quality Management and Erosion Control Permit is subject to review and revision by the County Engineer.

Failure to complete and/or abandonment of the permitted project shall cause the Security Bond to be forfeited and the matter turned over to the County Attorney.

I have read the application instructions in its entirety and understand that proper Erosion Control and Soil Stabilization Measures must be installed and maintained operational throughout the duration of the construction project, until final stabilization is established.

Submittal Checklist

- _____ Completed Permit Application
- _____ One set of Construction Plans (site plan only)
- _____ Application Fee (over a 1 acre tract)
- _____ Project Engineer’s Probable Cost Estimate for determining Security Bond Amount (over a 1 acre tract)
