

**KY 329 / KY 329 BYPASS REALIGNMENT & INTERSECTION IMPROVEMENT  
OLDHAM COUNTY (KYTC ITEM No. 5-542.00)**

**AUGUST 31, 2017  
PUBLIC INFORMATION MEETING**

---

**PROJECT DESCRIPTION, MEETING PURPOSE,  
SCHEDULE AND CONTACT**

---

**PROJECT DESCRIPTION**

The proposed project will realign/reconstruct the intersection of KY 329 and KY 329 Bypass. The scope is for Preliminary Engineering, Environmental documentation and Phase 1 Roadway Design including cost estimates. Initial study shows that current sight distances on both roadways are not sufficient for the posted speeds.

**ALTERNATIVE 1**

Alternative 1 begins approximately 300 feet south of Spring Hill Trace. The proposed alignment follows along existing KY 329 but would include dual left turn lanes with 200 feet of storage at the KY 329 Bypass (the existing left turn lane has approximately 105 feet of storage). This alternative also raises the roadway grade at the back of the turn lanes which improves sight distance coming into the intersection. A westbound left turn lane, an eastbound right turn lane and eastbound acceleration lanes would be added on the KY 329 Bypass.

**ALTERNATIVE 1A**

Alternative 1A begins approximately 850 feet south of Spring Hill Trace. The proposed alignment follows along existing KY 329 for approximately 200 feet then leaves the existing alignment on a curve to the northeast intersecting the KY 329 Bypass approximately 400 feet east of the existing intersection. A westbound left turn lane, an eastbound right turn lane and eastbound acceleration lanes would be added on the KY 329 Bypass.

**ALTERNATIVE 2**

Alternative 2 begins approximately 450 feet south of Spring Hill Trace. This alignment follows along existing KY 329 for approximately 250 feet then shifts to the south approximately 250 feet south of Spring Hill Trace. The proposed intersection with the KY 329 Bypass would be shifted north approximately 200 feet. A westbound left turn lane, an eastbound right turn lane and eastbound acceleration lanes would be added on the KY 329 Bypass.

**MEETING PURPOSE**

The purpose of tonight's meeting is to gain public input regarding the configuration of the proposed KY 329 / KY 329 Bypass intersection realignment. Additional comments regarding the project are also welcome. A comment form is provided.

**SCHEDULE**

The tentative schedule for the KY 329/KY 329 Bypass Realignment and Intersection Improvement project is as follows:

|                               |                |
|-------------------------------|----------------|
| Preferred Alignment Selection | September 2017 |
| Begin Final Design            | November 2017  |
| Right of Way & Utility Plans  | June 2018      |
| Begin Construction            | July 2020      |

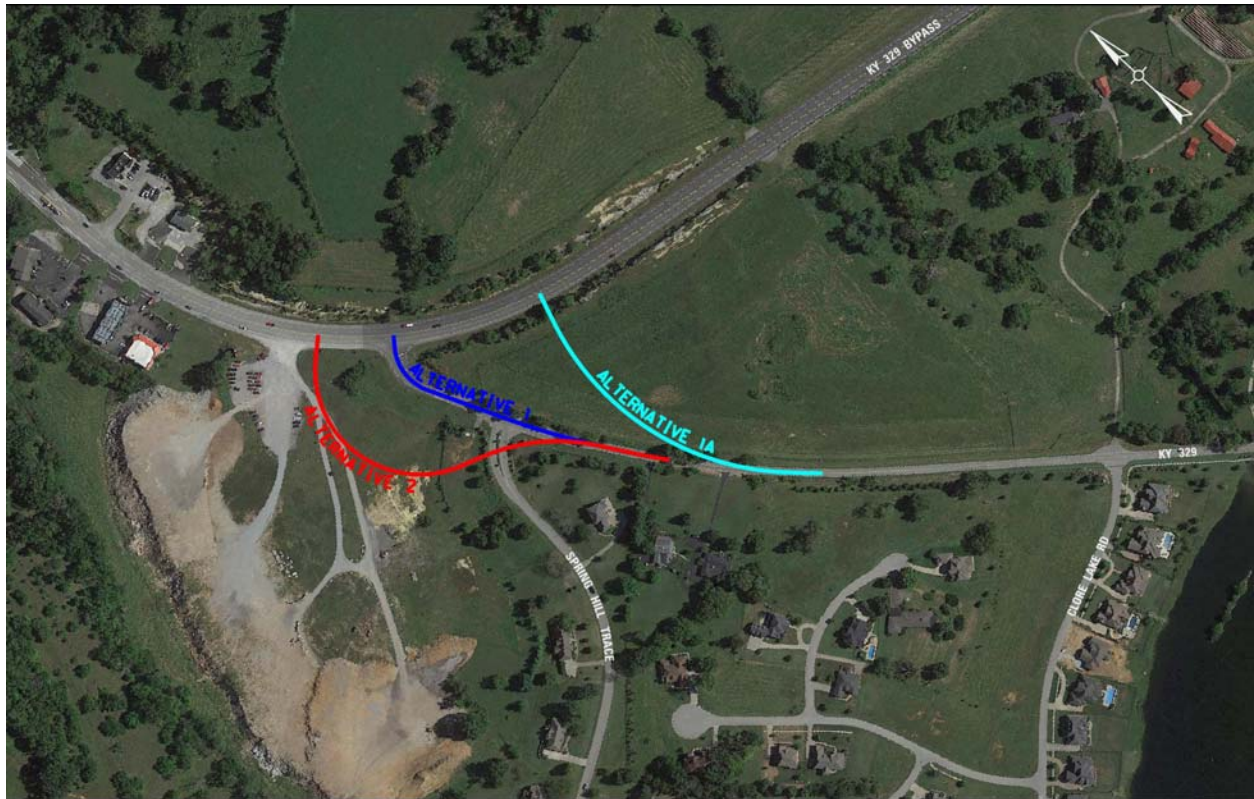

# KY 329 / KY 329 BYPASS REALIGNMENT & INTERSECTION IMPROVEMENT OLDHAM COUNTY (KYTC ITEM No. 5-542.00)
