

OLDHAM COUNTY HOUSEHOLD HAZARDOUS WASTE COLLECTION

Oldham County's Household Hazardous Waste Collection event for residents occurs one day per year and is usually the first Saturday in October. The following contains items that are considered hazardous and should be properly disposed of through the collection program. Because these items are harmful to the environment, residents should not dispose of the items in their normal trash for collection. [Click here](#) for alternatives to hazardous chemicals.

ACCEPTABLE ITEMS:

- Oil-based or lead paints, varnishes, stains and solvents such as paint thinner, mineral spirits, degreasers, wood preservatives
- Compact and tube fluorescent light bulbs, PCB ballasts
- Freon cylinders, (small and medium) propane tanks (1 lb. and 20 lb. grill,) and non-pressurized fire extinguishers
- Antifreeze, gasoline, adhesives, tars, driveway sealers
- Lawn, garden and pool chemicals, pesticides, herbicides and fertilizer
- Cleaners such as oven, drain, bathroom, rug, upholstery, spot removers; furniture polishes and waxes
- Furniture and metal polishes, waxes and rust removers
- Mercury thermometers, thermostats and loose mercury
- Lead acid and dry cell batteries including lithium, NiCad and alkaline
- Radioactive materials or smoke detectors

ITEMS NOT ACCEPTED:

- **NO MOTOR OIL**
- **NO LATEX OR WATER-BASED PAINT**
- Explosives such as gun powder, ammunition and flares
- Regulated medical waste; or unstable wastes as determined by the contractor
- Materials from businesses and non-residents of Oldham County
